# **All Women Trip to India**

## North India & Bengal

20 Days | Nov 11 - Nov 30, 2023

You are invited to join **Roke (Krishnakali)** on a journey to her/their beloved homeland, India. For the 4th year, **Cardamom Affair** will host a small group of queer/women guests as they experience India through the eyes of one of her own.

Roke was born and raised in Kolkata, India. Though she came to the USA 30 years ago, and calls the Bay Area her other home, she spends 3 months every year in India. Roke is a Psychosomatic Counselor, Teacher of Vedic-Shamanic Practices, and a Transformative Travel Coach for India. Her intention for creating these trips is to allow India to work her transformative magic on you, by changing your perspectives and expanding your view of life.

## Why have a Cardamom Affair?

- 1. You come to India as a guest of Roke, not a mere tourist.
- 2. Being with Roke, you receive an insider's sense of India, but from the place of ease, comfort, and safety that we are used to in the western world.
- 3. Her company at all times as your hostess and facilitator of your inner journeys, in addition to having local guides in most places, deepens your experience of India.
- 4. The activities and pacing of the group are influenced by your needs and interests.
- 5. Providing choices and flexibility is of utmost importance to us. Most days you can choose to do what the group is doing or go on your personal quest.
- 6. Roke facilitates 6 Discovery Sessions, before going to India (through zoom and/or in person meetings). You get to connect with fellow travelers, as you prepare for and learn about India. Traveling with people you already know enhances the journey.
